## COURSE INFORMATION

### HIV/Aids Awareness

The skills, values and knowledge reflected in this unit standard are required by people in the field of manufacturing and engineering.

The learning outcomes in this unit standard also contribute to the exit level outcomes required for various manufacturing and engineering qualifications. Qualifying learners can demonstrate an understanding of HIV/AIDS issues affecting them personally and in the workplace. They are able to apply relevant national, industry and company policies and procedures for dealing with HIV/AIDS in the workplace.

#### Course Outline:

- Understanding HIV and AIDS
- The Impact of HIV and AIDS
- HIV/AIDS and the Law
- Treatment, Support and Referrals of Employees Living with HIV/AIDS
- Take Home Assignment

**Target Audience:** For all staff.
