COURSE INFORMATION

Scaffolding Inspector

The qualifying learner will acquire the necessary knowledge and skills to inspect access scaffolding for compliance with the South African National Standards (SANS) 10085. This unit standard will serve, in conjunction with related unit standards, to develop the qualifying learner to function as a scaffold inspector.

The qualifying learner will be capable of:

- Demonstrating an understanding of different types of access scaffolding, applications and compliance.
- Explaining the role and responsibilities of the inspector.
- Reading and interpreting drawings, client requirements and other specifications.
- Inspecting and handing over access scaffolding.

Course Outline:

- Types of Access Scaffolding
- The Inspector Roles and Responsibilities
- Drawings
- Inspect and Handover

Target Audience: For all those that will be in charge of inspecting the scaffolding and signing it off for usage by the clients/employees
